**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

This action is responsive to the communication filed 11/6/07.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 33-38 are rejected under 35 U.S.C. 102(e) as being anticipated by Esmailzadeh et al. (US 6,163,533).

Regarding claim 35, Esmailzadeh et al teach a data receiving method of a receiver (fig. 3) in use with a mobile wireless communication system in which a transmitter (fig. 2) adds a preamble (pre-amble spreading code, fig. 2) for detecting reception power intensity in a receiver side (peak detection, fig. 3) to transmission data (data field, fig. 2), and sends the resultant signal as a transmission signal, and the receiver side detects the reception power intensity by use of the preamble contained in the transmitted signal (col. 3, lines 3-7), the data receiving method comprising:

receiving the transmission signal in which the preamble (pre-amble, figs. 1-2) for detecting reception power intensity in the receiver side is located preceding to the transmission data (data field, figs. 1-2) in the transmitter side and a random pattern is used for the preamble (col. 2, lines 15-20); and detecting the reception power intensity by use of the preamble (peak detection, col. 3, lines 4-7).

Regarding claims 33-34 and 36-38, the claims are just alternate recitation of claim 35; therefore, they are interpreted and rejected for the same reason as set forth in claim 35.

### ***Response to Arguments***

3. Applicant's arguments filed 11/7/07 have been fully considered but they are not persuasive.

In the remarks, Applicants argue that "the present invention's technical field" differs from the CDMA system of Esmailzadeh.

In response, first, Applicant's argument is not in the claim. Second, giving the broadest reasonable interpretation, the claimed preamble reads on the preamble of Esmailzadeh.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
